

NLASLPA  
General Teleconference  
Spring 2018  
Newsletter Committee Report

The newsletter committee continues to fulfill its mandate of producing two issues of The Signal newsletters per year. Our mission continues to be aimed at connecting NLASLPA's members. The sitting members of the committee are Christine Champdoizeau, Kim French, Maresa Moyles-Brazil and myself.

We met in February to plan the spring edition of The Signal. Significant discussion took place about increasing member knowledge about the newsletter and participation to the newsletter. Several strategies were put forth. Quotes and costs will need to be obtained to present to executive for budgeting. The spring issue was completed released in at the end of April. It featured conference updates, media review, SAC updates and a feature on a standing committee.

As always, The Signal would like to thank all those who participate in making The Signal through contributions, pictures and interviews that are featured in our newsletter. It's only by member participation that The Signal can be about NLASLPA members for NLASLPA members and for that we are grateful.

The committee looks forward to continuing to produce editions that are of interest to NLASLPA member community. Any and all feedback or suggestions are welcome to insure content remains relevant. Members may contact myself [lisapayne@westernhealth.nl.ca](mailto:lisapayne@westernhealth.nl.ca) with ideas or comments. The committee would also welcome new committee members to bring new ideas to the table. Again feel free to contact me or any member of the executive to express interest.

Submitted Respectfully,

Lisa Payne  
Chairperson
